

19 February 2024

Our Ref: 10541881

## **Glebe to Ultimo Walking and Cycling Improvements**

We will soon start work to install a separated cycleway along Kelly and Mary Ann Streets, Ultimo. These works will improve cycle access while increasing community safety and greening of our streets.

### **What work is being done?**

- Installation of a separated cycleway and parking changes
- New pedestrian and cyclist priority crossing on Mary Ann Street
- Traffic signal upgrades at Kelly and Wattle Streets, and Mary Ann and Harris Streets
- Access ramps
- Garden beds

### **When will work start?**

The City contractor, Sydney Civil, will start work in early March. Works will commence in Kelly Street and then progress across Wattle Street and along Mary Ann Street. Please see a map of works on the next page.

Most work will be carried out during the day **between 7:30am and 5:30pm Monday to Friday, and between 7:30am and 3:30pm Saturdays.**

### **Will there be any disruption?**

We will work to minimise any impacts during this time, however there will be some machinery noise, temporary restrictions to vehicle parking and alternative pedestrian access. Where night works will be required, we will provide notification to the community.

In the event of wet weather, work will commence the following day. If unsuitable weather continues, we will update you on any changes.

### **Find out more**

Thank you for your patience while we carry out these important works. For more information, please contact Sydney Civil community relations team on 1300 997 858 or email [community@sydneycivil.com](mailto:community@sydneycivil.com)

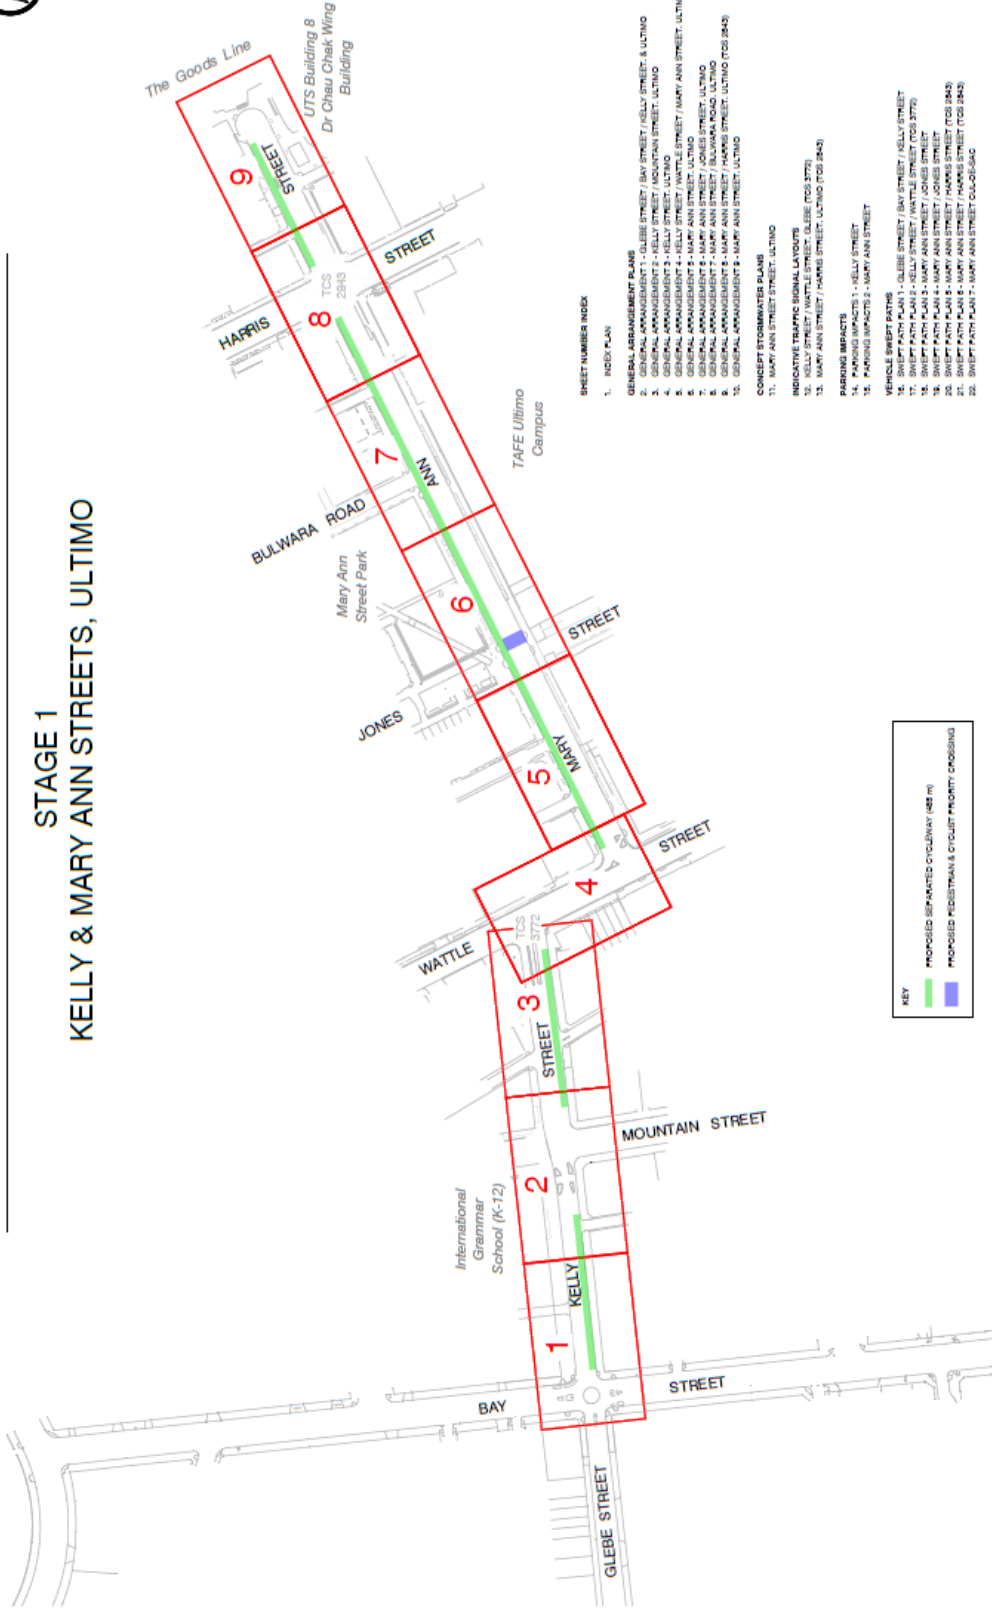

Yours sincerely

Rick Henson  
Senior Project Coordinator
