Our Ref: 10083443

Street Improvements in Regent Street, Paddington

We will soon start work on **Regent Street between Renny Street and Moore Park Road, Paddington** to improve the footpaths, and replace some of the hard surfaces with plants for the local community to enjoy.

What work is being done?

- Installing a footpath made from a new environmentally-friendly concrete mix
- Improving access ramps
- Fixing damaged kerb and gutter
- New garden beds
- Installation of sandstone stepping stones

Please see proposed concept photo on other side of this letter.

When will work start?

The City's contractor, Sydney Civil, will start work in about two weeks. Work will be carried out during the **day** between **7:30am and 5:30pm Monday to Friday, 7:30am and 3:30pm Saturday**. The work is expected to take about **two months** to complete, weather permitting.

Will there be any disruption?

We will take steps to minimise any impact on you. However, there will be some machinery noise, temporary restrictions to vehicle parking and alternative pedestrian access. In the event of wet weather, work will commence the following day. If unsuitable weather continues, we will notify you of the change in scheduling.

Thank you for your cooperation while we carry out these important works.
