Walking and Cycling Improvements in Pyrmont

We will soon start work to install a separated cycleway along Saunders and Miller Streets, Pyrmont. These works will improve pedestrian and cycle access while increasing community safety and greening on our streets.

Streets:	Saunders Street and Miller Street
Type of work:	Installation of a separated cycleway, continuous footpath across side streets, a new pedestrian crossing on Miller Street, footway renewal, garden beds and street furniture
Start date:	28 September 2020
Duration:	Staged over nine months
Working hours:	7.30am to 5.30pm – Monday to Friday 7.30am to 3.30pm – Saturday

We will work to minimise impacts during this time, however there will be some machinery noise and temporary restrictions to vehicle parking and pedestrian access.

If there is wet weather, our contractors will try to start the work the next day. If unsuitable weather continues, we will update you on any changes to scheduling.

You will still be able to access properties in the street, and we will contact you if we need to temporarily restrict access to progress work.

Please note that works maybe rescheduled at short notice because of the current Covid-19 global pandemic. The safety of our communities, customers and staff is our top priority.

Thank you for your patience while we deliver these important works.
